

Oral Sex Bill Of Rights™

We the People of the Oral Sex Society, whose mantra is P2 (Passion for the Penis and Passion for the Pussy), wish to perform this natural sexual stimulation with our mouth, lips and tongue with no inhibitions or notions that oral sex is a disgusting or foul thing. We will display our unadulterated affection, desires, needs and fulfillment toward our partner sexually, and orally. This constitution is to reassure, give peace of mind and acceptance that our choice and free will to perform oral sex will be respected and never compromised or made to feel like a pornographic act.

We respect and love our bodies by giving and receiving love, pleasure and joy by consuming the mouth, lips and tongue on our partner's body so passionately and freely. We understand the importance of a passionate kiss; the vital pro-active element behind foreplay/sexplay; the gifted desire to touch, taste, feel, hear and smell our partner's luscious erogenous zones; the "P" in Passion; and the dire need for sensuality during oral sex: all definitely leading to an amazing #OFS (Orgasm For Sure).

We will act accordingly within the privacy of our own homes, bedrooms and/or places that are not inappropriate or offensive to anyone else. But we will perform fellatio and/or cunnilingus on our spouses and/or partner(s) because it's our free-will, choice and birthright.

Oral Sex may not be for everyone as it is an outright expression of sexual, pleasurable stimulation that aims to please our partner in a very pleasurable way. If you find this act outright offensive, please use your free will to turn the channel in your dull brain, and pray that your spouse and/or partner is not enjoying this amazing delight with your foe.

We choose to use our Mouth, ("wicked") Lips, and Tongue (MLT) to:

- 1) Ignite your partner's sexual libido by starting with a gentle, inviting kiss
- 2) Arouse your partner's erogenous zones
- 3) Use your partner's body as a road map exploring the sensitive regions
- 4) Tease, stimulate, tantalize those very sensitive body parts
- 5) Kiss until you can't kiss any more
- 6) Speak our wants and desires during sex, oral sex, fucking, and/or love making
- 7) Sustain the peak of sexual gratification by extending foreplay/sexplay until you're completely saturated

I want you to pledge, right here, right now, to taste and touch with your mouth, lips, and tongue, while your eyes see, your noses smell, and your ears hear the joys, wonders and rewards from the displays of unadulterated pleasure from oral sex. You will actively share in your partner's sexual escapade, created because your lips, mouth and tongue did all the hard work of giving pure pleasure. Know the joys that you can give and share with your partner(s) so freely and uninhibitedly are authentic. Never rush the art of oral sex, so both you and your partner(s) can experience the joys, wonders and rewards that sensual oral sex can bring.

Take the pledge; swear to yourself and your partner(s) that guaranteed orgasms from mutually beneficial oral sex will be the orgasms that keeps on O-Cumming for sure. #OFS!
